

EU Power Storage Battery Project

Overview

How many battery energy storage systems were installed in Europe in 2024?

21.9 GWh of battery energy storage systems (BESS) was installed in Europe in 2024, marking the eleventh consecutive year of record-breaking installations, and bringing Europe's total battery fleet to 61.1 GWh. However, the annual growth rate slowed down to 15% in 2024, after three consecutive years of doubling newly added capacity.

Are battery storage systems a good investment in Europe?

Battery storage systems (BESS) are poised for significantly higher profits across Europe, with Rystad Energy analysis suggesting potential increases of over 15% in some countries. The positive shift follows changes to the European Union's (EU) power pricing structure introduced in October, making the economics of BESS projects much more attractive.

How much battery storage will Europe have in 2025?

In the most-likely scenario for 2025, 29.7 GWh of battery storage will be installed in Europe, representing a 36% annual growth. By 2029, the report anticipates a sixfold increase to nearly 120 GWh, driving total capacity to 400 GWh (EU-27: 334 GWh).

What happened to Europe's battery capacity in 2024?

In 2024, Europe added 21.9 GWh of battery energy storage systems (BESS), marking the eleventh straight year of record-setting installations and raising the continent's total battery capacity to 61.1 GWh. However, the annual growth rate declined to 15%—a slowdown following three years of doubling new capacity additions.

EU Power Storage Battery Project

SolarPower Europe Report: European Battery Storage ...

May 8, 2025 · Alongside the market analysis, SolarPower Europe makes a number of recommendations to reach the required levels of batteries in Europe by the end of the decade: ...

New report: European battery storage grows 15% in 2024, EU energy

May 7, 2025 · New report: European battery storage grows 15% in 2024, EU energy storage action plan needed Press Release 7 May 2025 MUNICH, Germany (Wednesday 7th May ...

Europe's Battery Storage Additions Set for 45% Jump in 2025

3 days ago · Europe's battery storage sector is entering a period of rapid scale-up, with annual deployments set to climb from 11 GW in 2024 to 16 GW in 2025, a 45% year-over-year ...

European battery storage fleet expected to grow 45% year ...

2 days ago · Germany continues to lead Europe's battery energy storage market, with 18 GW of utility-scale demand and 8 GW from commercial and industrial applications over the next decade.

Europe's Battery Storage Additions Set for ...

3 days ago · Europe's battery storage sector is entering a period of rapid scale-up, with annual deployments set to climb from 11 GW in 2024 to 16 ...

Energy storage

Aug 17, 2023 · The main energy storage method in the EU is by far 'pumped storage hydropower', which works by pumping water into reservoirs when there is an electricity surplus in the grid - ...

European battery storage installations to grow 36% in 2025, ...

May 7, 2025 · European battery storage installations set a new record in 2024 with 21.9 GWh added, bringing total capacity to 61.1 GWh despite a slowdown in growth to 15 percent after ...

Economic outlook for Europe's battery storage improving ...

5 days ago · The economics of battery storage systems (BESS) in Europe look much rosier following changes to the European Union's (EU) power pricing structure in October, with ...

EU shift to 15-minute power trading fuels ...

4 days ago · New EU 15-minute power trading rules boost European battery storage system (BESS) profits by over 15%, enhancing long-term ...

New report: "EU energy storage action plan needed"

May 26, 2025 · 21.9 GWh of battery energy storage systems (BESS) was installed in Europe in

2024, marking the eleventh consecutive year of record breaking-installations, and bringing ...

EU shift to 15-minute power trading fuels over a 15% profit ...

4 days ago · New EU 15-minute power trading rules boost European battery storage system (BESS) profits by over 15%, enhancing long-term arbitrage revenues.

European energy storage market enters acceleration phase ...

4 hours ago · International energy consultancy Wood Mackenzie has released groundbreaking research showing Europe's battery energy storage system (BESS) market is experiencing ...

European battery storage installations to ...

May 7, 2025 · European battery storage installations set a new record in 2024 with 21.9 GWh added, bringing total capacity to 61.1 GWh despite a ...
