

Earthquake-resistant Bhutanese photovoltaic container for power stations

Overview

What is a mobile solar PV container?

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and commercial applications. Fast deployment in all climates.

Why do petroleum companies use mobile solar containers?

Petroleum companies often operate in distant locations with limited access to grid power. This is where a mobile solar containers can act as an additional power source to run the equipment. Good choice for disaster reliefs whenever it is important to deliver electricity as quickly as possible.

What is a solar container?

Our Solar Containers are designed in a way to maximize ease of operation. It's not only meant to transport PVs but also to unfold them on site. It is based on a 20' sea container. The efficient hydraulic system helps quickly prepare the Solar to work. Because of their construction, our containers offer unmatched flexibility and mobility.
