Estonia solar Energy Storage Project

Overview

Where is Estonia's largest battery storage facility located?

The flagship battery storage project commenced operations on February 1, only days before cutting ties with the Russian power grid. Estonian state-owned energy company Eesti Energia has inaugurated the nation's largest battery energy storage facility at the Auvere industrial complex in Ida-Viru County.

How will a battery energy storage park work in Estonia?

The battery energy storage park and its substation will be connected to the electricity transmission network using a 330kV AC underground cable, marking a first in Estonia. Baltic Storage Platform confirmed that the BESS will seek to ensure the stability and resilience of the Estonian electricity grid.

Why is energy storage important for Estonia?

Energy storage is also vital for meeting Estonia's goal of sourcing all its electricity from renewable sources by 2030. The country's climate minister, Yoko Alender, emphasised the role of storage systems in this transition, saying they would help ensure a "clean, reliable and affordable energy future" for Estonia.

Should Estonia invest in battery parks?

Estonia's investment in large-scale battery parks highlights its strategic push for both energy independence and a more sustainable power grid. However, battery parks do have environmental impacts.

Estonia solar Energy Storage Project

Solar Energy, Battery Storage Projects For Estonia

Mar 12, 2025 · Sunly, in collaboration with Metsagrupp, is developing a 16 MW / 32 MWh battery energy storage system (BESS) next to the 45 MW Raba Solar Park in Pärnu County, Estonia. ...

Solar Energy, Battery Storage Projects For ...

Mar 12, 2025 · Sunly, in collaboration with Metsagrupp, is developing a 16 MW / 32 MWh battery energy storage system (BESS) next to the 45 MW ...

Estonia builds Risti, the largest solar park in the Baltic

Mar 12, 2025 · This project strengthens Estonia's energy security and resilience, while driving the green transition. Said Thomas Östros, Vice-President of the EIB. Integration with battery ...

Estonia builds Risti, the largest solar park in ...

Mar 12, 2025 · This project strengthens Estonia's energy security and resilience, while driving the green transition. Said Thomas Östros, Vice ...

Estonia begins construction on Europe's ...

Oct 6, 2024 · Located in Kiisa, just outside Tallinn, the project is spearheaded by the Baltic Storage Platform - a joint venture between ...

Estonia is investing in energy storage. A milestone towards a ...

Oct 7, 2024 · Switching to the European grid aims to increase the region's energy independence and strengthen its energy security amid the changing geopolitical situation. The Mirova project ...

Estonia inaugurates its largest battery energy storage project

Mar 27, 2025 · The flagship battery storage project commenced operations on February 1, only days before cutting ties with the Russian power grid.

Estonian Solar Project: 300 MW Plant Leads ...

Apr 4, 2025 · Estonia is launching a major 300 MW solar-plus-storage project in Ida-Viru County, transforming a former quarry to boost renewable ...

Estonian Solar Project: 300 MW Plant Leads Green Energy Leap

Apr 4, 2025 · Estonia is launching a major 300 MW solar-plus-storage project in Ida-Viru County, transforming a former quarry to boost renewable energy and energy independence.

Energy Storage: Estonia's Next Big Leap After the Solar Boom

Sep 29, 2025 · The launch of the Auvere battery storage facility marks a turning point in

Estonia's energy landscape. With a capacity of 53 megawatt-hours--enough to cover just 2-3% of ...

Groundbreaking for 400MWh BESS in Estonia

Oct 4, 2024 · Construction at one of the sites. Ceremonial groundbreaking. Rendered aerial view of how the Kiisa Battery Park project will look once completed. Image: Baltic Storage Platform ...

Estonia begins construction on Europe's largest battery park

Oct 6, 2024 · Located in Kiisa, just outside Tallinn, the project is spearheaded by the Baltic Storage Platform - a joint venture between Estonian energy company Evecon, French solar ...

Groundbreaking for 400MWh BESS in Estonia

Oct 4, 2024 · Construction at one of the sites. Ceremonial groundbreaking. Rendered aerial view of how the Kiisa Battery Park project will look once ...

Tallinn Power Storage Project: A Blueprint for Grid-Scale Energy

As Europe races toward 2030 renewable targets, the Tallinn Power Storage Project has become a litmus test for grid-scale battery viability in northern climates. Operational since Q4 2024, this ...

Estonia moves forward with a groundbreaking energy storage ...

The project also shows Estonia's ability to forge powerful international partnerships, uniting Estonian energy innovator Evecon, French solar energy pioneer Corsica Sole, and strategic ...
