# Factory price battery storage in Cape-Town

## Overview

---

Why did solar MD open its first gigawatt factory in Cape Town?

Solar MD officially opened Africa's first gigawatt factory in Cape Town to support the company's commitment to developing and manufacturing high-performance energy storage solutions that maximise the potential of renewable energy resources.

Where is the first gigawatt energy storage factory in Africa?

Energy storage company Solar MD has officially opened the first gigawatt factory on the continent, capable of producing up to 3GWh of energy storage annually. The 15,000-square-metre factory, located in Cape Town, has been operational since July. However, it was officially inaugurated on Saturday, 30 November 2024.

Why should Cape Town invest in solar power?

"Not only does this investment fuel Cape Town's drive towards a smarter, cleaner and more secure energy future, but it also makes this metro the base for the production of these batteries that are exported into Africa and Europe." Solar MD says the factory can produce up to 3GWh of energy storage in a year.

How much has solar MD invested in Cape Town?

As per the City of Cape Town, Solar MD has invested more than R150 million into its developments since opening in 2015. The company plans to invest nearly R1 billion over the next five years.
