

# Generator container in Toronto Canada

## Overview

---

### What is a containerised generator?

Our Containerised Generators deliver robust, high-capacity power from 300–3,000 kVA in secure, weather-resistant enclosures. Designed for challenging environments and critical applications, they offer noise reduction, easy transport, and bespoke configuration to meet your site's exact needs.

### What is a containerized generator enclosure?

Our containerized generator enclosures are built to be highly mobile, allowing you to easily transport and relocate your generator equipment as needed. The modular design enables quick assembly and disassembly, making it an excellent choice for temporary power needs or projects requiring frequent relocation.

### Where can I buy a genset container?

The genset can also be attached to the chassis of the container, in these cases, it is called an underslung genset. Here at Alconet, you can buy a genset container both new and used. Take a look at our current offer down below, or request a quote directly to receive a price inquiry.

### Why should you choose genset containers?

With our genset containers offer optimal performance in various site conditions. By maintaining high-quality standards for both the engine and the complete containerized power plant package, we ensure excellent reliability for your power and heat generation needs. Easy to install and disassemble, convenient for maintenance and inspection.
