

# Georgia Portable Power Recommendation

## Overview

---

Who sanctioned battery energy storage systems in Georgia?

The systems are sanctioned by the Georgia Public Service Commission through the Integrated Resource Plan. Credit: Georgia Power. US-based electric utility Georgia Power has commenced construction of new battery energy storage systems (BESS) across the state of Georgia, totalling 765MW capacity.

What is Georgia Power's Integrated Resource Plan (IRP)?

Georgia Power's latest IRP builds on a 2023 version of the proposal. Image: Silicon Ranch. The Georgia Public Service Commission (PSC) has approved US utility Georgia Power's 2025 Integrated Resource Plan (IRP), which will see the utility aim to install 4GW of new renewable power capacity by 2035.

What is Georgia Power's 2025 Integrated Resource Plan?

Image: Silicon Ranch. The Georgia Public Service Commission (PSC) has approved US utility Georgia Power's 2025 Integrated Resource Plan (IRP), which will see the utility aim to install 4GW of new renewable power capacity by 2035. The utility first proposed the 2025 IRP in January, and builds on a version of the document submitted in 2023.

Will Georgia Power continue using coal & natural gas for electricity?

Georgia Power's plan to continue using coal and natural gas for electricity generation has been approved by state regulators. The plan aims to address an anticipated increase in energy demand, partly driven by data centers, through a mix of fossil fuels and renewables.
