

# **Germany has solar site replacement**

## Overview

---

Could Germany be a better place for solar power?

Beyond increasing the rollout of rooftop solar arrays, Germany could also increase the space that is suitable for the renewable power technology by dedicating more farm land for so-called agri PV, researchers from Forschungszentrum Jülich and RWTH Aachen University found.

How many solar panels were installed in Germany in January 2022?

According to the Federal Network Agency (Bundesnetzagentur) in Germany, 780 MW of new solar capacity was installed in January 2022. The main market driver remains PV systems up to 300 kW in size, which accounted for about 526.5 MW of the installations last year.

What are Germany's most anticipated solar projects?

1. Verbund Visiolar Germany solar PV park The Verbund Visiolar solar PV park is a sizable project planned near Berlin, with a capacity of 2,000 MW. This solar plant will span 3,459 acres at first, with plans to expand further across 49,421 acres. Its sheer scale makes it one of Germany's most anticipated solar projects.

How many solar installers are there in Germany?

German solar panel installers – showing companies in Germany that undertake solar panel installation, including rooftop and standalone solar systems. 6,982 installers based in Germany are listed below. Australia, Germany, Denmark, .
