What is a hybrid inverter?

Hybrid inverters, sometimes called battery-ready inverters, are similar to string solar inverters but enable the direct connection of a battery storage system to allow greater self-sufficiency using solar. Most hybrid inverters provide basic backup power during a blackout but are generally not designed for continuous off-grid use.

Is Growatt a good inverter company?

Growatt has since released a vast array of updated inverters, which have had very good feedback so far, and now offers a wide range of solar and energy storage inverter solutions for residential and commercial applications.

Who makes Fimer solar inverters?

FIMER is a well-established Italian-based inverter manufacturer that took over ABB's solar division in early 2020. The company is in the process of revamping many of the ABB-style inverters and is expanding its range of high-quality string solar inverters for residential, commercial and utility-scale applications.
