

Home energy storage direction in Damascus

Overview

Is solar energy a solution to Syria's electricity crisis?

After more than thirteen years of war, Syria's electricity crisis has only deepened, compounding the suffering of its people. The former Assad government failed to secure stable energy supplies, and as shortages worsened and fuel prices soared, the regime turned to solar energy projects as an alternative, seeking to mitigate the crisis.

Is solar energy a viable option in Syria?

As the electricity crisis worsens, solar energy is no longer just an option – it has become an unavoidable necessity. Yet the high cost of installing photovoltaic systems has pushed many Syrians to rely on subsidized loans, particularly those provided by the Renewable Energy Support Fund, which offers interest-free financing.

Did Siemens buy equipment in Syria before Assad collapsed?

In minute 2 of the video, German-made electronic equipment from Siemens was visible, while later on in minutes 3, 9, and 30, machinery bearing the Mitsubishi Electric logo appeared—clear indications that sanctioned technology had been procured and installed in Syria before the collapse of the Assad regime.

Is Damascus real estate promoting investment in Marota city?

As it turned out, it appeared in an advertisement posted on the page “Damascus Real Estate World ” on February 4, 2025, promoting investment in residential apartments and commercial shops within the Marota City project.
