Home solar system installed in Brussels

Overview

Can solar panels be installed in Brussels?

In Brussels, additional regulations are added: the solar panels can not be visible from a public space, and they do not protrude more than 30cm off the roof. For the installation of solar panels on the ground, on a protected building or in other regulated cases, you will have to contact your municipality.

Can you install solar panels on a roof in Belgium?

Installing solar panels on your roof is a (very) cost-effective operation. In Belgium, there are a number of subsidies to help cover the cost of installing solar panels. You can also choose the model of the self-consumption of energy produced by panels, which is also very advantageous.
