

How many 5G base stations does Estonia Communications have

Overview

How many 5G stations has Telia installed in Estonia?

Andre Visse, chief technology officer at Telia Estonia, said the company has installed more than 500 5G base stations in Estonia, and expanding the 5G network and increasing its density is now one of the main priorities for the company. During 2023 alone, Telia has installed nearly 175 5G stations at various locations across Estonia.

What percentage of Estonia's population is covered by 5G?

Telia's 5G network covered approximately 75 percent of the population of Estonia at the beginning of October, whereas by the end of next year, 5G coverage is planned to expand to nearly 95 percent of the population.

What is the European 5G Observatory?

The European 5G Observatory tracks progress in 5G infrastructure deployment across the EU and other regions worldwide according to base stations deployment, edge nodes and infrastructure sharing agreements. Source: IDATE estimates and regulators' data. Reporting period: at December 2024. Source: IDATE estimates and regulators' data.

How fast is Telia 5G?

In the 26-gigahertz band, Telia clocked in a new 5G network speed record at the beginning of this summer -- 2.2 gigabits per second during download. According to the CTO, the 5G network is developed using different frequency bands to deliver the potential, quality and speeds enabled by 5G to customers in rural and urban areas alike.
