

# How many battery cabinets are there in the capital

## Overview

---

Which city has the most Nio battery swap stations?

The city with the most Nio battery swap stations is Shanghai, with a total of 190 stations. As of the end of 2024, Shanghai has a population of about 24.8 million and is one of China's megacities. On April 13 this year, Nio announced that it had delivered its 100,000th vehicle in this city.

How many Nio battery swap stations are there in China?

As of July 28, Nio had 120 battery swap stations in Shanghai, followed by 86 in Beijing and 51 in Hangzhou. Shenyang and Harbin, two northeastern Chinese cities, have the fewest Nio battery swap stations, with seven and six respectively. Northeast China's cold winter climate is considered unsuitable for EV adoption.

How many batteries does Gigafactory Nevada produce?

With an annual capacity of 37 gigawatt-hours, the site has produced 7.3 billion battery cells, 1.5 million packs, and 3.6 million drive units, since early last year. Gigafactory Nevada is one of the world's highest-volume plants for electric motors, batteries, and powertrains.
