

# **How many mobile base station sites are there in Amsterdam**

## Overview

---

How many 5G base stations are there in China?

In data collected between July 2022 and June 2024, China was reported to have had around 3.5 million 5G base stations installed across the country, with Chinese mobile operators investing heavily in 5G infrastructure. By comparison, the European Union had around 460,000 thousand base stations, while the United States had approximately 175,000.

How can I see the location of a mapped base station?

The map opens from left side main menu. In the maps tab you can see the location of already mapped base stations. The application will automatically only show the base stations of the current network being used (LTE in the picture). The location of base stations can also be viewed from the Cellmapper webmap.

How to find a base station?

Base station location in urban areas is best determined by doing round trips of city blocks. At more rural locations you should do larger sweeps to save time. You will get the best result on flat ground. Ensure that you have a sufficiently good connection to the base station as well as a GPS connection.

How many LTE base stations does Rakuten have?

The three incumbent operators have roughly 200000 LTE base stations each. @Rakuten\_Mobile had 5739 LTE base stations on air at the end of June. Within that coverage area, Rakuten's UN-LIMIT customers have unlimited mobile data, outside of it limited data over au's network.
