# How much does Polish energy storage products cost

## Overview

---

Is energy storage a good investment in Poland?

In Poland, interest in energy storage investment has been evident for some time. Last year's main auction of the power market, with capacity delivery for 2029, further bumped up the capacity of storage projects.

What happened to energy storage in Poland?

The Energy Regulatory Office said in a report last year on electricity storage in Poland that, as a result of the main power market auctions for 2021-2028 and the supplementary auctions for 2022-2025, contracts for energy storage with a total capacity of 9.5 GW were concluded.

Should US companies offer battery energy storage systems in Poland?

U.S. Commercial Service recommends that U.S. companies offering battery energy storage systems take a hard look at the Polish market because there will be opportunities for U.S. companies to propose their solutions for many years to come. For more information, please contact Commercial Service Poland at [office.warsaw@trade.gov](mailto:office.warsaw@trade.gov).

Why is Poland a leader in energy storage technology?

Poland's regulatory environment is increasingly supportive of BESS investments, with new policies offering tax incentives and subsidies. The alignment with European Union energy directives further propels the adoption of renewable energy and energy storage solutions, positioning Poland as a leader in energy storage technology within the region.
