How to replace the battery of solar base station

Overview

Do I need to replace my base station's batteries?

If you're not certain which system you have, see the [Which Version of the SimpliSafe® System Do I Have](#) article. You will likely never need to replace your Base Station's batteries as they are rechargeable and meant to last. The Base Station takes four (4) 1.2V, 1300mAh nickel-metal hydride (NiMH) rechargeable batteries.

How do I replace the batteries in my solar lights?

To start replacing the batteries in your solar lights, pick the right spot to work. It's best to find somewhere that's both clean and dry. A tidy space means you won't lose any small bits like screws when you take the light apart. This keeps everything organized and makes the whole process of swapping out the batteries a lot smoother and quicker.

How to change battery in solar post light?

You can change the batteries in most solar lights by opening the battery compartment and replacing the old batteries with new, compatible ones.

Do solar light batteries need to be replaced?

Inspect the current batteries for leakage, bulging, or rust, and ensure you note the battery type and orientation before replacing them. Properly dispose of old batteries by taking them to a recycling center or a store with a battery recycling bin to prevent environmental harm. [How to Know That Your Solar Light Batteries Need Replacing?](#)

1.
