# Huawei North Africa Home Energy Storage Power Supply

## Overview

---

### What is Huawei power-m?

Huawei's home power solutions, whether for battery storage or getting the entire home off grid, provide safe and efficient ways for African households to harness renewable resources. Power-M is Huawei's advanced digital back-up power solution that is geared towards meeting power supply needs of modern homes.

### How can Huawei help tackle decarbonisation?

"As decarbonisation takes place, innovative players like Huawei want to collaborate with governments to find long-term solutions to issues like energy poverty and security." One way to do this is with tools that change how energy is used at the household level. 55% of all energy on the continent is used to run homes.

### How can Huawei improve energy performance?

Huawei can address this with optimisers that boost performance by up to 30%. Smart Guard accessories enable intelligent energy management with features like remote scheduling across devices.

### Does Huawei have a warranty?

"Huawei's home energy products come with a 10-year warranty. The ability to run remote diagnostics means that you'll never need to have a technician at your house for a repair," says Lusson. "We also have a policy of providing full replacement when warranty issues are found," he adds.

## Huawei North Africa Home Energy Storage Power Supply

---

Huawei Digital Power enhances local services for Africa's energy ...

Jun 25, 2025 · China-based Huawei enhanced PV and storage operations in North Africa with global services, lifecycle support, safety models, and digital tools for efficient management.
