

# **Huawei sodium ion solar container battery**

## Overview

---

What is Huawei's new patent for sodium-ion batteries?

On November 22, China's Huawei announced a new patent for sodium-ion batteries named "Electrolyte Additives and Preparation Methods, Electrolytes and Sodium-ion Batteries."

How will advanced sodium-ion batteries change the world?

The introduction of advanced sodium-ion batteries by CATL, BYD, and Huawei could have significant global market implications. As these companies gear up for production, sodium-ion technology could transform various industries. Energy storage systems in renewable energy sectors, and possibly in automotive applications, could greatly benefit.

Where is China's 10 MWh sodium-ion battery storage station located?

The 10-MWh sodium-ion battery storage station was put into operation on May 11 in Nanning, Guangxi in southwestern China, China Southern Power Grid Energy Storage, the energy storage division of China Southern Power Grid, said on May 11.

Are BYD & Huawei the future of energy storage?

BYD and Huawei are not far behind. Both firms are heavily investing in sodium-ion technology improvements. They recognize the importance of developing efficient, cost-effective alternatives to Lithium-ion batteries. Thus, their R&D efforts are promising for the future energy storage landscape. Sodium-ion technology offers numerous benefits.
