# **Huawei solar container communication station wind power equipment**

## Overview

---

Why should you use Huawei's intelligent wind power network solution?

Huawei's intelligent wind power network solution provides convenient access and real-time data backhaul for mobile inspection, operation management, emergency command, and inspection vehicle dispatching scenarios through high-quality Wi-Fi coverage in wind turbines and wind farms, improving O&M efficiency and ensuring operational security.

What are Huawei power products?

Power products include systems for indoor, outdoor, embedded, and Central Office (CO) applications. They include Distribution Power Systems (DPS) and hybrid power, as well as a site energy management system. Huawei telecom power products adapt easily to a variety of telecommunication networks.

What types of power systems does Huawei offer?

They include Distribution Power Systems (DPS) and hybrid power, as well as a site energy management system. Huawei telecom power products adapt easily to a variety of telecommunication networks. We also offer integrated power solutions for intelligent video surveillance systems and solutions for site sharing of tower vendors.

What is Huawei telecom power?

The solution is based on Huawei's extensive experience in building the telecommunication networks and our focus on customers' needs. Huawei telecom power product capacities range from 30A to 24,000A. Power products include systems for indoor, outdoor, embedded, and Central Office (CO) applications.
