

# Install solar lights for night lighting

## Overview

---

### How to install solar lights?

Before installing the solar lights, prepare the installation area. Clear any debris or obstacles that may hinder the installation process. Ensure that the ground is level and stable to provide a solid foundation for the light fixtures. Taking the time to prepare the area will ensure a smooth and secure installation.

### How to install a night light?

To install a SnapPower SwitchLight night light, keep it in the on position during installation so that the prongs touch and light up the night light. If it is not lighting up, bend the prongs slightly and jiggle it while screwing it back on.

### How do you make a solar night light?

You'll need a large suction hook, solar garden light, a hot glue gun, and a ping-pong ball to create a solar night light. You can construct this device in about five easy steps. First, attach the suction hook to the window or any glass surface. Then, take the solar garden light and remove the stake from the holder.

### How to install a solar light switch?

Select the light from a famous brand and ensure its warranty, durability, and connectivity. When installing the switch with the solar light, try to keep it in a place that can be easily accessible. You can also install a switch with two power modes. One for the high light and another for the low light.
