# Is the solar solar container outdoor power waterproof

## Overview

---

Are the solar panels waterproof?

All kits come standard with the upgraded 20w solar panel for extra power! The whole system has an IP66 weather proof rating, which means that not only are the units dustproof, but highly water resistant making them perfect for outdoor rural or domestic use! Very high quality.

Are Solar Fairy Lights waterproof?

Both the solar panels and the solar string lights of Solar Fairy Lights are IP65 waterproof. They can withstand all kinds of wet weather, including heavy rain and snow. Powered by solar energy, the lights turn on automatically at night and off during the day, providing 8-10 hours of warm white fairy light with a full charge.

How much solar can a 20 foot container hold?

20 foot containers can expand from 3,000W of solar up to 6,000W. 40 foot containers can expand from 3,000W up to 12,000W of solar in the future. We love the strategically placed solar panels on top of the container roof - we've accomplished this secure mounting with our field tested RPS Scalable Ground Mount.
