# Is there any energy storage power station in St John s

## Overview

---

Does Saint John energy have a battery system?

The battery system may also help Saint John Energy provide power to customers during power outages due to storm events. “Renewable electricity can be reliable at all times of the year, thanks to the latest battery storage technology,” said Steven Guilbeault, the federal Minister of Environment and Climate Change.

What's happening with Saint John Energy?

There is currently an outage affecting 1,700 customers on the east side of Saint John Energy. The estimated restoration time is 10 minutes.

How much does Saint John energy cost?

Saint John Energy's residential customers currently pay 10.46 cents per kWh for electricity and a monthly service charge of \$17.53.

Is Saint John energy the first to deploy a Tesla Megapack?

Proud to be the first in the world to deploy. Energy storage is a critical element of our green energy future, and we are thinking big on this front. In 2019, Saint John Energy was proud to be the first in the world to deploy a Tesla Megapack.
