

# **Jakarta portable energy storage power supply customization**

## Overview

---

Why do Indonesians need solar power?

More than 10 million Indonesians live in off-grid or underserved regions, especially in Eastern Indonesia and smaller islands. Many areas rely on diesel gensets that are costly, polluting, and subject to fuel supply interruptions. Indonesia receives 4.5–6.5 kWh/m<sup>2</sup>/day of solar irradiance—ideal for solar + battery solutions.

How much solar irradiance does Indonesia receive a day?

Indonesia receives 4.5–6.5 kWh/m<sup>2</sup>/day of solar irradiance—ideal for solar + battery solutions. Store excess solar energy during the day and use it during night or outages—supporting energy independence and clean development.

Why should you choose dauntu energy storage?

There are many stringent requirements on the security and reliability of BMS, and dauntu energy storage has made full preparations. From core chip selection to system-level architecture, we guarantee the safety and reliability of battery products in an all-round and real-time manner.

Who is Xuantu energy storage Tues?

In 2025, TUES obtained official authorization from Victron Energy and became the official authorized agent in the Asia Pacific region. As a strategic partner, Xuantu Energy Storage TUES will provide a complete product matrix and localized engineering technical support for the Asia Pacific market.

## Jakarta portable energy storage power supply customization
