# Kingston Energy Storage Module Equipment Manufacturing Company

## Overview

---

Who is Kingston memory & storage?

Today, Kingston is a leading global manufacturer of memory and storage solutions. Our customers include businesses of all sizes, tech consumers and a vast network of channel partners. We supply top tier data centers, cloud providers and PC manufacturers as well as companies developing the next trends in smart devices.

Why is Kingston a global company?

Kingston has established manufacturing facilities around the world to meet the growing needs of the storage and memory market on a global scale.

How did Kingston start?

Kingston started out in 1987 when two engineers and friends, John Tu and David Sun, saw an opportunity in the technology space. During a severe shortage of surface mount memory chips, they designed a new type of memory module which fulfilled a demand for memory that would serve to redefine industry standards for years to come.

How many locations does Kingston have?

Kingston operates 18 regional offices around the world, working with our distribution network in more than 175 locations. This level of availability through our worldwide network of distributors and resellers means we are there for you and our partners, wherever we're needed, whatever problem you need us to solve. Because we're Built on Commitment.
