

# **Kyrgyzstan Electric Power Institute BESS Telecom Energy Storage Project**

## Overview

---

Who is a Bess project manager?

O&M 6. Decommissioning and EOL Utility project managers and teams developing, planning, or considering battery energy storage system (BESS) projects. Subject matter experts or technical project staff seeking leading practices and practical guidance based on field experience with BESS projects.

What is a Bess project?

The life-cycle process for a successful utility BESS project, describing all phases including use case development, siting and permitting, technical specification, procurement process, factory acceptance testing, on-site commissioning and testing, operations and maintenance, contingency planning, decommissioning, removal, and responsible disposal.

Are stakeholders involved in a Bess project?

As part of this goal, this report explores the necessary interaction between stakeholders within a utility throughout the life cycle of a BESS project and provides a high-level project narrative to coordinate efforts in a utility BESS project team.
