

Kyrgyzstan Solar Container Exchange

Overview

Will Kyrgyzstan implement two solar power plant projects?

As part of the International Energy Investment Forum in Vienna, the Ministry of Energy and the Ministry of Economy and Commerce of Kyrgyzstan signed an agreement with the International Finance Corporation (IFC) on implementation of two solar power plant projects. The press service of the Ministry of Economy reported.

Will Kyrgyz build a solar power Park?

The second phase is expected to include projects for two solar power plants with a capacity of 100–150 MW each in the Batken and Talas regions. This agreement solidifies the ongoing partnership between the Kyrgyz government and IFC to establish a solar power park with a maximum capacity of 500 MW across various project stages.

What is Kyrgyzstan's solar energy project?

The solar energy project aligns with Kyrgyzstan's Energy Sector Development Strategy, which aims to develop 1,500 MW of renewable energy by 2035. This strategy, supported by the World Bank, seeks to diversify the energy sector, increase domestic electricity generation, and reduce greenhouse gas emissions.

When will Kyrgyzstan's solar energy project start?

The second phase of the tender is expected to commence soon. The solar energy project aligns with Kyrgyzstan's Energy Sector Development Strategy, which aims to develop 1,500 MW of renewable energy by 2035.
