

WALMER ENERGY

# Madrid Container 5 Battery Charging

## Overview

---

What is a 5 MWh battery?

5+MWh capacity□optimized for utility scale application, ensuring peak shaving and grid stability. Features 314Ah LFP battery cells, 20ft standard container design, high energy density, and multi-level safety. High corrosion-resistant and compliant with global environmental standards.

Does a 5MWh battery container have two clusters?

Battery Rack (Two battery clusters) NO. Fig4. Outside View of 5MWh Battery Container Standard 20 -foot battery container has two stacks, one side O&M, every container has two out for one PCS. Fig5.

How many stacks does a 5MWh battery container have?

Outside View of 5MWh Battery Container Standard 20 -foot battery container has two stacks, one side O&M, every container has two out for one PCS. Fig5. Electric Wiring Diagram of Battery Container (for reference) NO. Fig5. BMS Architecture Diagram(For reference).

Can I deploy multiple battery containers?

We can offer flexible deployment of multiple battery containers supporting both back-to-back and end-to-end installations. The battery container is compatible with the leading global inverter manufacturers such as SMA & Power Electronics with up-to 2.5MW of power per battery container.
