# Manila Energy Storage Container Costs

## Overview

---

Can battery energy storage systems transform business in the Philippines?

Battery Energy Storage Systems have the potential to transform how commercial and industrial companies in the Philippines manage their energy needs. With benefits ranging from cost reduction to energy supply stability, BESS is a compelling solution. While the initial investment may vary, the long-term advantages are undeniable.

How much does a 40ft high cube container cost in Manila?

The 40ft high cube container (HC) has extra height and is perfect for taller and high-volume cargo. For a new 40ft HC shipping van, you're looking at a price anywhere between \$3500 to \$4500 in Manila. If you're looking for a more affordable option, then used 40ft HC units are perfect for you.

How much does a battery energy storage system cost?

Larger facilities with higher energy demands will require more extensive and costly systems. Battery energy storage systems using lithium-ion technology have an average price of US\$393 per kWh to US\$581 per kWh. While production costs of lithium-ion batteries are decreasing, the upfront capital costs can be substantial for commercial applications.

Who provides fractionalized battery energy storage?

We are partnered with [NexVolt](#), the first in the Philippines to provide fractionalized Battery Energy Storage. [NexVolt](#), through their cutting edge technology, ensures even Small Medium Enterprises (SMEs) can adopt inexpensive battery energy storage systems and kickstart their journey towards energy independence.
