# Maputo BESS portable power bank

## Overview

---

What is the best portable power bank?

1. CUKTECH 30 Power Bank The CUKTECH 30 is that perfect middle ground between a portable power bank and a mini power station. It's got a massive 40,000 mAh of capacity, which is more than enough for charging literally all your devices many times over on long haul flights.

Which MagSafe power bank should I buy?

If you have an iPhone, we recommend some alternatives in our Best MagSafe Power Banks guide. If you're looking for a compact power bank with decent capacity, Anker's Nano Power Bank is my pick, but watch out because the company has several power banks with the same name.

How do I choose the best power bank?

Selecting the best power bank for you can not only minimise technological faff on the hills, but can also be the difference between safety and an escalating emergency situation. Steph Wetherell tests the best with additional testing from Peter Macfarlane. Have you ever unexpectedly run low on phone battery while in the mountains?

Is mycharge a good portable power bank?

The charging cord is shorter than other models. This portable power bank from myCharge earned the top slot in our test for its portability, battery life, and ability to accommodate both iPhone and Android models. Thanks to the USB port, type C, and lightning cable adapters included, you don't have to bring your own cables.
