

WALMER ENERGY

# Mobile power box modification

## Overview

---

### What is a boxpower Minibox?

The BoxPower MiniBox is a pre-engineered solar power station, prefabricated inside a 4' x 8' palletized enclosure. All energy systems are equipped with a solar array, batteries, inverters, and the option to add an integrated generator. The MiniBox microgrid solution can seamlessly switch between off-grid and grid-tied operation.

### What is a boxpower system?

BoxPower's hardware solutions are designed to adapt to any energy challenge. Each system integrates solar PV, battery storage, and optional backup generation in a modular, pre-engineered platform that is scalable for projects ranging from 5kW to 5MW+.

### What applications does boxpower support?

BoxPower's modular microgrid platform supports a wide range of applications, from large-scale systems to compact, portable solutions. Designed for flexibility and efficiency, our hardware ensures reliable energy across various use cases. Large-scale, grid-connected or standalone systems for high-demand applications.

### Why should you choose boxpower?

At BoxPower, our technology combines modular hardware and intelligent software into a unified system that delivers resilient energy for the most challenging environments. Whether it's a single microgrid for a remote facility or a portfolio of systems across multiple sites, our solutions are scalable, efficient, and built for rapid deployment.
