

Mozambique 21700 battery cell wholesale

Overview

Are 21700 batteries rechargeable?

The 21700 battery cells provide substantial energy storage in a relatively compact size. They are designed for a long cycle life. The 21700 batteries can withstand numerous charging and discharging cycles without significant degradation. The 21700 lithium ion battery is rechargeable.

What are 21700 battery cells used for?

These 21700 battery cells are widely used in various applications. These include electric vehicles, portable electronics, and renewable energy systems. Compared with 18650, 21700 batteries have a larger size, higher capacity, and better power output.

Which 21700 batteries are suitable for high-performance applications?

They are suitable for high-performance applications, providing increased energy density. Legend Battery is a leading 21700 battery supplier. We provide high-performance and high energy-density battery solutions. Our 21700 cells are mainly from Samsung, LG, Panasonic, Murata, and Molicel.

What is the difference between protected and unprotected 21700 batteries?

Protected 21700 Batteries: Feature an integrated protection circuit to prevent overcharging, over-discharging, and short circuits. These are slightly longer than standard 21700 cells. **Unprotected 21700 Batteries:** Designed for battery packs or high-performance applications where external battery management systems (BMS) handle protection.
