Nepal installs solar power generation for solar container communication stations

Overview

Can solar PV & energy storage solutions transform Nepal's energy sector?

The event took place at the Huawei Exhibition Center in Hattisar, Kathmandu, bringing together over 80 key stakeholders from Nepal's energy, business, and industrial sectors. This program served as a platform to explore the potential of solar PV and energy storage solutions in transforming Nepal's energy sector.

Is solar power a viable alternative source of energy in Nepal?

As an alternative source of energy, solar power is gaining popularity across the global as well as in Nepal. Although the major investments for electricity production has flowed towards hydropower projects in Nepal, investors in solar projects have increased in recent years.

How many solar projects are being built in Nepal?

According to Department of Electricity Development, about 17 solar projects are currently being constructed in Nepal. NEA along with private sector investors are developing these projects. The department has already issued the license for the construction and the work of these projects is going on full swing.
