Netherlands backup solar container battery

Overview

Where is the Netherlands' largest stand-alone battery energy storage system located?

Dispatch, a Dutch battery developer, is going to construct the Netherlands' largest stand-alone Battery Energy Storage System (BESS). This groundbreaking 45MW/ 90MWh utility-scale BESS will be located in the port area of Dordrecht, on a 6000m² site and will be used for grid stabilization by storing excess energy from renewable sources.

What is a battery energy storage system (BESS)?

The Dutch electricity market is transforming with increased solar, wind and other renewable power, creating opportunities and challenges. Battery energy storage systems (BESS) are vital for managing market volatility and capitalizing on price fluctuations.

Why should battery energy storage systems (Bess) be transformed?

This transformation presents both opportunities and challenges for Battery Energy Storage Systems (BESS). These systems are crucial for managing fluctuations in energy supply and demand, providing benefits like grid stability and financial potential.

What will equans Netherlands do for Eneco?

Equans Netherlands will take charge of the engineering and construction of the battery storage system. Eneco will use the battery on a long-term basis to manage differences in supply and demand in energy markets.
