New York Energy Storage Power Station Connected to the Grid

Overview

What is the northern New York energy storage project?

"The completion of the Northern New York Energy Storage project marks an important step to reaching New York's energy storage and climate goals." The project, located in Chateaugay, about 40 miles northwest of Plattsburgh, is the Power Authority's first utility-scale battery project and the first one built by New York State.

What is New York state's energy storage plan?

New York State aims to reach 1,500 MW of energy storage by 2025 and 6,000 MW by 2030. Energy storage is essential for creating a cleaner, more efficient, and resilient electric grid. Additionally, these projects will provide meaningful benefits to Disadvantaged Communities and Low-to-Moderate Income New Yorkers.

How will energy storage help New York's energy grid?

As New York electrifies buildings, transportation and industrial end uses, accelerating energy storage deployment will provide a flexible solution to help meet these additional demands on the grid and support the retirement of downstate fossil fuel generators near their end of life.

Where is New York's first state-owned battery energy storage project located?

Governor Kathy Hochul today announced that New York's first state-owned utility-scale battery energy storage project is now operating in the North Country's Franklin County.

New York Energy Storage Power Station Connected to the Grid

New York State large-scale energy storage ...

Mar 31, 2025 · New York State regulators earlier this month approved a scheme to support investment in grid-scale energy storage facilities.

Energy Storage for New York State

Energy storage is a smart and reliable technology that helps modernize New York's electric grid, helping to make the grid more flexible, efficient, and resilient. With thousands of energy ...

BESS in New York: what distributed projects signal for grid ...

Meanwhile, the Index Storage Credit (ISC) shifted prospective investment in the coming years toward grid-scale energy storage. What does the distributed buildout signal for grid-scale ...

Brooklyn's power play: Williamsburg battery energy storage ...

Jul 11, 2025 · During periods of peak demand, such as heat waves, when air conditioning use surges, power is discharged back into the Con Edison grid, helping to relieve pressure on New ...

Figuring Out a Battery Storage System to Fit New York's ...

Jun 23, 2025 · Developers of small- and utility-scale battery storage find permitting and connecting to the energy grid is an arduous and costly process.

NY's First State-Owned Utility-Scale Energy Storage System ...

Aug 29, 2023 · The energy storage facility balances power demand by capturing any excess generation, storing it, and discharging it into the grid during times of peak demand, typically on ...

Governor Hochul Announces New York's First ...

Aug 25, 2023 · Governor Kathy Hochul today announced that New York's first state-owned utility-scale battery energy storage project is now ...

Figuring Out a Battery Storage System to Fit New York's Wind and Solar

Jun 23, 2025 · Developers of small- and utility-scale battery storage find permitting and connecting to the energy grid is an ...

NY's First State-Owned Utility-Scale Energy ...

Aug 29, 2023 · The energy storage facility balances power demand by capturing any excess generation, storing it, and discharging it into the grid ...

NYCEDC Advances NYC's Green Economy ...

Apr 23, 2024 · These projects will improve the electric grid's reliability, help store renewable energy and retire existing polluting power plants, and ...

Energy Storage for New York State

Energy storage is a smart and reliable technology that helps modernize New York's electric grid, helping to make the grid more flexible, efficient, and ...

New York State large-scale energy storage support scheme ...

Mar 31, 2025 · New York State regulators earlier this month approved a scheme to support investment in grid-scale energy storage facilities.

New York's first state-owned energy storage project now ...

Aug 28, 2023 · The 20 MW Northern New York Energy Storage project installed and operated by the New York Power Authority connects into the state's electric grid in Chateaugay, NY. It is ...

Governor Hochul Announces New York's First State-Owned ...

Aug 25, 2023 · Governor Kathy Hochul today announced that New York's first state-owned utility-scale battery energy storage project is now operating in the North Country's Franklin County. ...

5 MW AC Distributed Solar and Battery Energy Storage ...

3 days ago · The Project advances New York's path to 10 GW of distributed solar and 6GW of energy storage by 2030.

NYCEDC Advances NYC's Green Economy Action Plan with ...

Apr 23, 2024 · These projects will improve the electric grid's reliability, help store renewable energy and retire existing polluting power plants, and provide the grid capacity needed for ...

New York's first state-owned energy storage ...

Aug 28, 2023 · The 20 MW Northern New York Energy Storage project installed and operated by the New York Power Authority connects into the ...

Brooklyn's power play: Williamsburg battery ...

Jul 11, 2025 · During periods of peak demand, such as heat waves, when air conditioning use surges, power is discharged back into the Con Edison ...
