# Niamey container solar panel installation

## Overview

---

How do you mount solar panels to a container?

For side-mount type panels, attach brackets to the container walls by bolting and mount the panels onto these brackets. All glaringly obvious, those panels should now be skewed for maximum sun exposure. Connect the solar panels to the inverter and the electrical cabinet according to the manufacturer's instructions.

Can solar panels be mounted on a shipping container?

Mounting solar panels on a shipping container can be a practical solution for mobile or remote power needs. Below are the general steps and considerations for mounting solar panels on a shipping container, specifically for the models LZY-MSC1 and LZY-MSC3:.

How to install a PV solar system?

The support base is first built onto the track support. Transfer tracks should be placed next to the container in a level position. Be flat-everything you track and secure it with ends. Remove the latch on the PV solar frame group and position the jacking square pipes. Use jacks to lift the frame group and allow wheels to fall onto the tracks.

How do I secure my solar panels?

Consider putting down ground fixed nails for stabilization if there are high winds. This LZY-MSC3 Bolted Solar Panel Container: It is designed to last as well as very efficiently power equipment with solar panels totally secured mounted on top or on the sides using heavy bolted systems.
