North Africa Mobile Energy Storage Container 2MW Customer Support

Overview

What are the benefits of a Bess container energy storage system?

It also includes automatic fire detection and alarm systems, ensuring safe and efficient energy management. The BESS Container 500kW 2MWh 40FT Energy Storage System Solution is a cutting-edge, highly integrated energy storage solution designed for large-scale applications.

What is a containerized battery energy storage solution?

The Containerized Battery Energy Storage Solution (BESS) is an advanced Lithium Iron storage unit built into a customised 20ft or 40ft container. The unit is designed to be fully scalable to meet your storage requirements. Storage size for a containerised solution can range from 500 kWh up to 6.5 MWh per container. Engineered for Anything.

What is energy storage container?

SCU uses standard battery modules, PCS modules, BMS, EMS, and other systems to form standard containers to build large-scale grid-side energy storage projects.

What is a mobile energy storage system?

On the construction site, there is no grid power, and the mobile energy storage is used for power supply. During a power outage, stored electricity can be used to continue operations without interruptions. Maximum safety utilizing the safe type of LFP battery (LiFePO4) combined with an intelligent 3-level battery management system (BMS);
