# North America Home Inverter

## Overview

---

How big is the North America power inverter market?

The North America power inverter market size reached US\$ 13.9 Billion in 2023. Looking forward, IMARC Group expects the market to reach US\$ 22.5 Billion by 2032, exhibiting a growth rate (CAGR) of 5.3% during 2024-2032.

Why are power inverters so popular in North America?

North America represents one of the largest markets for power inverters accounting to several initiatives for energy conservation by switching to sustainable energy sources. In addition to this, various regulatory measures, in order to reduce the carbon footprints have boosted the sales of power inverters in the region.

What is a solar inverter?

The solar inverter. It's the behind-the-scenes wizard that turns your panels' raw sunlight juice (DC power) into something your home can actually use (AC power). Pick a dud, and your solar dreams fizzle. Pick a champ, and you're golden.

What is a power inverter used for?

Owing to this, it is employed for rail traction, wind turbines, motor drives, etc. North America represents one of the largest markets for power inverters accounting to several initiatives for energy conservation by switching to sustainable energy sources.
