

# **North Macedonia solar container outdoor power EK Factory**

## Overview

---

Is North Macedonia a burgeoning market for solar energy production?

This shift underscores North Macedonia's potential as a burgeoning market for solar energy production, particularly as the country aims to meet its ambitious renewable energy targets. The regulatory landscape for renewable energy in North Macedonia has been markedly transformed with recent changes adopted in April 2023.

What is the future of solar energy investment in North Macedonia?

With the government targeting a 38% share of renewables in gross final energy consumption by 2030 and proposing substantial investments totaling approximately US\$1.7 billion by 2030, the future of solar energy investment in North Macedonia appears promising and critical for the nation's energy transition.

Will solar power plants in North Macedonia avoid CBAM?

Solar power plants in industrial zones in North Macedonia will enable manufacturers exporting their products to the EU to avoid CBAM.

Is Macedonia a new player in solar industry?

Macedonia – new player in solar industry. A pivotal moment occurred in 2020 with the launch of the first significant solar plant, and by 2023, North Macedonia had experienced a 251% increase in solar capacity, demonstrating the effectiveness of government initiatives in fostering growth in the sector.
