

# **Northern Cyprus Communication Network Base Station Construction Project**

## Overview

---

Does Northern Cyprus have a telecommunications infrastructure?

Northern Cyprus has been proactive in upgrading its telecommunications infrastructure. The state-owned telecommunications company, CYTA, manages most of the island's telecom and internet connections. However, the liberalization of the sector has allowed private companies to emerge, fostering competition and innovation.

What telecommunications companies are in Northern Cyprus?

The state-owned telecommunications company, CYTA, manages most of the island's telecom and internet connections. However, the liberalization of the sector has allowed private companies to emerge, fostering competition and innovation. A significant milestone in Northern Cyprus's telecom development is the Quantum Cable project.

What is the Broadband Plan of Cyprus 2021-2025?

The Department of Electronic Communications of the Deputy Ministry of Research, Innovation and Digital Policy announced the Broadband Plan of Cyprus 2021-2025 in November 2021. It is a roadmap that aims to strengthen and develop new infrastructure, technologies and connectivity services.
