

WALMER ENERGY

Norway energy storage power station custom manufacturer

Overview

Why should we invest in EV battery recycling in Norway?

Our BESS holds immense potential for contributing to Norway's burgeoning clean energy landscape. Upon installation at the EV battery recycling facility, Hydrovolt, it will play a pivotal role in optimizing energy utilization and unlocking new revenue streams.

Is Norway a key player in the transition to a more sustainable future?

Norway's proactive approach to embracing renewable energy technologies positions it as a key player in the global transition towards a more sustainable future. In the coming years, we envision expanding our presence in Norway, collaborating with local stakeholders to harness the full potential of BESS technology.

Why should you invest in a Bess project in Norway?

The delivery process unfolded seamlessly, thanks to meticulous planning and the cooperation of all involved parties. Norway's efficiency and commitment to environmental stewardship shone through, enhancing the overall experience. Our BESS holds immense potential for contributing to Norway's burgeoning clean energy landscape.
