

Ottawa Airport uses high-pressure folding containers

Overview

Are collapsible containers airworthy?

Yes, all our collapsible containers comply fully with civil aviation regulations. They are completely airworthy, and they can be restrained directly by the Cargo Loading System of any compatible aircraft. Are special tools needed to operate a collapsible ULD?

You don't need any special tools to operate our collapsible containers.

Do Empty shipping containers clog roads and ports?

Empty shipping containers clog roads and ports. Staxxon's foldable containers -- which can be stacked in bundles -- are one solution to this.

What is a foldable container?

Such foldable containers are compatible with the normal ISO-approved TEU or FEU and are strong enough to be placed anywhere on a shipboard stack. Any number of containers from 2 to 5, can be folded and stacked in such a way to form a regular container size for transport or storage.

How do you fold a HCI container?

To fold an HCI container, an MHE would lift the roof of the container, and then the sides are folded inward. The roof is then lowered gently to rest on the folded sides creating a kind of horizontal flat-pack. Four folded HCI containers are placed on top of one another to form a single standard container size for storage or transportation.
