

Ottawa Distributed Energy Storage Services Company

Overview

What is distributed energy storage?

The company's distributed energy storage solutions combine massive arrays of industrial-strength lithium-ion batteries with specialized software and control systems to enable flexible energy optimization.

What is a distributed energy resource?

Distributed Energy Resource (DER) means an electricity source that is connected to a distribution system for the purpose of providing energy, typically through a connection on the customer-side of an ownership demarcation point. Sources generate electricity (e.g. generation facilities and energy storage facilities when discharging).

Where is a battery energy storage system near Dunrobin?

City approval is being sought for a Battery Energy Storage System (BESS) near Dunrobin. A map posted on the website of Evolugen shows the location of the proposed South March Battery Energy Storage System (BESS) at 2555 and 2625 Marchurst Rd. near Dubrobin. Photo by EVOLUGEN / HANDOUT.

Does Ottawa fire services provide water storage?

Water storage may be available on-site, and Ottawa Fire Services is Superior Tanker Shuttle certified to maintain continuous water delivery as needed. Will Ottawa Fire Services inspect and certify that BESS projects are safe before they are operational?

OFS plays a role in ensuring the safety of BESS projects.

Ottawa Distributed Energy Storage Services Company

e-Storage

Dec 5, 2025 · As energy storage installations around the world are expected to grow 15-fold by 2030, Canadian Solar is well-positioned to serve a growing number of its customers who ...
