What are AIMS Power inverters?

AIMS Power inverters are a complete line of DC to AC power inverters. They are available in 12 volt, 24 volt, and 48 volt power inverters, including off-grid and car power inverters.

What types of power inverters are available?

AimsPower offers a complete line of DC to AC power inverters in various configurations. Our inverters are available in 12 volt, 24 volt, and 48 volt models. We provide both pure sine wave and modified sine wave inverters, along with specialty DC power inverter products like commercial three-phase power inverters.

How does a DC inverter work?

Converts DC to AC power by switching the DC input voltage (or current) in a pre-determined sequence so as to generate AC voltage (or current) output. Output of the inverter is “chopped AC voltage with zero DC component”. It contain harmonics.
