Paris supporting energy storage project

Overview

What does the Paris pledge mean for pumped storage hydropower?

To unlock the full potential of pumped storage hydropower and support the almost 35 GW pipeline of projects across Europe, the Paris Pledge calls for urgent regulatory support at both EU and national level, including: Launching a dedicated EU initiative to accelerate electricity storage.

Why did Eurelectric join the Paris pledge?

That is why Eurelectric has partnered with the International Hydropower Association (IHA) to support the Paris Pledge, a collective commitment from the hydropower sector to scale up pumped storage hydropower.

Could Europe double its pumped storage hydropower capacity in 25 years?

Streamlined permitting processes for new PSH projects. According to the IHA and Eurelectric, with political support, Europe could double its pumped storage hydropower capacity within 25 years, strengthening energy security and advancing the European Green Deal.

Why did European hydropower leaders sign the Paris pledge?

European hydropower leaders signed the Paris Pledge, committing to boost pumped storage and urging EU support for long-duration storage.
