# Peru Communications 5g network base station

## Overview

---

Is 5G technology a good idea in Peru?

By evaluating a regulation proposal of 5G technology in Peru, it is shown that the implementation of this technology will bring benefits in the social and economic sectors of the country. The 5G technology has high expectations regarding its launch.

Why is 4G technology so popular in Peru?

The 4G technology in Peru has been well received, because it was a different experience from its predecessor. Its greatest internet browsing speed is of 100Mbps, communication of people by video call, etc. Thus, this has generated greater expectations about the mobile communications that 5G technology will bring about.

What is 5G technology?

The 5G technology or the fifth generation one, is an evolution of mobile communications systems that through-out the years has been cherished, where each generation is distinguished in improved data transmission speeds.

Is there a 5G antenna in India?

According to the Ministry of Transport and Communications (MTC), there is no 5G antenna in the country at the moment nor it is not known if the implementation of them is being carried out during the stage of social confinement due to the COVID-19 pandemic in the country .
