Philippines Cebu Energy Storage New Energy Battery Manufacturer

Overview

What is MGen's new energy storage facility in Cebu?

The Cebu facility is the second for MGEN after the planned 4,500 megawatt-hour energy storage project in Nueva Ecija, which broke ground in November 2024. / PNA MGEN's 49MW Battery Energy Storage System in Toledo, Cebu, targets full completion by 2027, boosting Visayas grid stability and clean energy transition.

Is Aboitiz Power Building a hybrid battery energy storage system in Cebu?

MANILA, Philippines — Aboitiz Power Corp. is building a 30-megawatt hybrid battery energy storage system (BESS) project within the Mactan Economic Zone in Cebu. Slated for commissioning in the first half of 2026, the project is poised to become one of the first large-scale energy storage systems in Central Visayas.

Where is the first battery-based energy storage facility in the Philippines?

The plant, which will be the first battery-based energy storage facility in the Philippines, will be located next to the Masinloc power plant in Zambales. The energy storage array will enhance grid reliability by providing fast response ancillary services like frequency regulation.

Who owns Cebu energy power station?

This ownership tree is part of the Global Energy Ownership Tracker, a project of Global Energy Monitor. The 246 MW Cebu Energy power station consists of 3 x 82MW coal-fired generators. Units 1 & 2 began operating in 2010, and Unit 3 began operating in 2011. The station is operated by Cebu Energy Development Corporation.
