# Portable energy storage inverter power supply solution

## Overview

---

What is BMS + industrial and commercial energy storage inverter?

The complete set of energy control solutions of "BMS + industrial and commercial energy storage inverter" is suitable for industrial parks, backup power, photovoltaic storage, wind storage and other application scenarios to ensure the safety of industrial and commercial battery systems. Safe operation and system performance optimization.

What is energy storage technology?

Our advanced energy storage technology proven through years of market application, enables rapid charge and discharge switching within seconds. It supports grid stability by providing peak-shaving and frequency regulation, while also easing congestion and reducing the need for costly transmission upgrades.

Who is Tu Energy Storage Technology (Shanghai)?

Safe operation and system performance optimization. TU Energy Storage Technology (Shanghai) Co., Ltd., founded in 2017, is a high-tech enterprise specializing in the research and development, production and sales of energy storage battery management systems (BMS) and photovoltaic inverters.

What is uninterruptible power supply (UPS)?

Uninterruptible power supply (UPS) is the last line of defense to ensure the safe and stable operation of the key equipment of the communication base station. There are many stringent requirements on the security and reliability of BMS, and daantu energy storage has made full preparations.
