What is the best portable power station for backup?

Anker Solix F1200 (1,229Wh): This unit was previously known as the PowerHouse 757 from Anker, and was also CNET's previous pick for "best portable power station for backup." Its UPS mode was one of the earlier units to boast "less than 20ms" switchover time in the event of a power outage. It's also currently \$500 off on Anker's site.

Does a power station have a fan?

Internal fans will kick on to keep the power station from overheating. While these fans are far quieter than the roar of a gas-powered generator, they do still create some noise. Smaller power stations are about as loud as a small fan, while larger ones produce about the same amount of noise as a refrigerator.
