# **Portable explosion-proof power supply**

## Overview

---

What is the ATEX-EPL-rps-70a 220V explosion proof portable power supply?

The ATEX-EPL-RPS-70A-220V explosion proof portable power supply is built to provide operators in hazardous locations with a method of power low voltage hand lamps with 12 or 24 volts DC output. This unit, comes with an input voltage of 220V AC 60 Hz and includes four explosion proof receptacles rated at 20 amps each.

What is an explosion proof device?

An explosion proof device is a device designed to withstand a gas or vapor explosion from within and prevent the ignition of the surrounding atmosphere by eliminating any sparks, flame, hot gases or flashes created inside the fixture.

What is the Larson ATEX-EPL-rps-70a-220v explosion proof power supply?

The Larson Electronics ATEX-EPL-RPS-70A-220V explosion proof power supply enables operators to power low voltage LED lights via four Class 1 and 2, Division 1 and 2 receptacles.

What is a CEAG explosion-protected power distribution?

CEAG explosion-protected power distributions fulfil these high mechanical explosion protection requirements by means of a high-strength protective framework made of stainless steel (1.4301) and enclosures that have been specially developed for this purpose.
