Portugal Porto Solar Remote Control System

Overview

What angle should solar panels be installed in Porto?

To maximize your solar PV system's energy output in Porto, Portugal (Lat/Long 41.1691, -8.6793) throughout the year, you should tilt your panels at an angle of 35° South for fixed panel installations.

Why do solar panels shut off in Portugal?

The majority of solar panel systems in Portugal automatically shut off in the event of a power outage for safety. This happens so electricity is not fed back into the grid, potentially harming technicians working on the lines. However, there are solutions such as SmartGuard by Huawei, to keep your system running during the power outage.

What is the VAT rate for solar panels in Portugal?

Until 30 June 2025, installations benefit from a reduced VAT rate of 6% on mainland Portugal (5% in Madeira, 4% in the Azores). After that, the rate is expected to return to the standard 23%. Thinking about installing solar panels in your Portuguese home?

Should you install solar power in Portugal?

You may want to relocate as an expat, renovate your home as an investor, or be a pensioner looking for efficiency; solar installation in Portugal is an inexpensive option. Aside from cutting your electricity bills, solar power can make you an independent individual and the proud possessor of an asset-rich property.
