

# Portugal s largest solar glass

## Overview

---

What is the largest solar park in Portugal?

Neoen, one of the world's leading independent producers of exclusively renewable energy, inaugurated today the largest solar park in Portugal and the fourth 1 largest amongst Neoen's assets in operation.

What is the Global Solar Photovoltaic Glass market?

The global solar photovoltaic glass market is moderately consolidated: the five largest producers command about 64% of melting capacity, yet regional pockets exhibit differing dynamics. Chinese leaders Xinyi Solar and Flat Glass Group deploy scale as their chief weapon, targeting 32,200 tonnes per day of combined capacity by end-2024.

How many solar farms are in Rio Maior & Torre Bela?

With a capacity of 272 MWp, the Portuguese park is composed of two contiguous solar farms, Rio Maior Solar Farm (204 MWp) and Torre Bela Solar Farm (68 MWp), both fully owned by Neoen. It is located in the municipality of Azambuja, 70 km north of Lisbon and is connected to the REN substation, in Rio Maior, via a 400 kV overhead line.

How much green energy is produced in Portugal?

Its annual production will reach over 500 GWh of green energy, which corresponds to the consumption of 110,000 homes. Some 80% of the renewable energy produced will be purchased by the Portuguese State, under two 15-year power purchase agreements (PPA) awarded under the 2019 renewable capacity auction.
